TALKS

Science and Technology of Longboarding

Longboarding has been around since the start of skateboarding and is currently undergoing a revival. With video clips and animations this talk goes deeper into the science and technology of skating.

Hollywood Science

Based on the BBC / OU TV series *Hollywood Science*. We ask how realistic is the science behind some of Hollywood's classic movies and stunts? We will take a number of Hollywood Films and look in more detail to find out, films include: SPEED, Shanghai Noon, The Score Waterworld, UP, Moon, Chain Reaction ...

WORKSHOPS

Voice on a Light Beam

Using a simple transmitter and receiver we can send a message on a light beam!

Christmas LED workshop

This workshop is all about homemade parallel and series LED circuits which we will use to decorate our Christmas cards and trees (made before the workshop).
