

The Creative Science Centre
– Dr Jonathan Hare
Newsletter Summer 2017
*Science ideas, information
and inspiration*

Looking for ideas, inspiration
and science based activities
for the next academic year?
Please book me now for a talk
or workshop for the autumn
term

POPULAR TALKS & WORKSHOPS:

- * Science of Breaking Bad (A-level)
- * Hollywood Science
- * Castaway Science
- * Baghdad Battery & Electro-chemistry
- * The Carbon nano-revolution
- * Lighthouses and the Fresnel lens
- * The Buckyball and Geodesic domes
- * Light beam communications
- * The Transistor and electronics
- * and many more see my web site

FOR FULL LIST OF TALKS AND WORKSHOPS SEE:
www.creative-science.org.uk/tandws.html

- * resources * articles * talks
- * workshops * projects * all levels

I'm now on Twitter ...

This summer I set up a twitter account so do follow
my occasional tweets :-)
@JonathanHareC60

“Hare is a brilliant communicator: The star of BBC
TV’s “Rough Science”; his uniquely imaginative
website has hands-on demonstrations, talks and
workshops which inspire enthusiasm for science in
children worldwide”

Sir Harry Kroto (Nobel Prize 1996)

Here's what people say about my work

"Absolutely fantastic! Our kids were buzzing all the way back to Newbiggin. As I mentioned it's more than just Science, it's about role models and aspirations and this visit provided all three and more."

Rob, Newbiggin Middle School, Science Christmas Lectures, Durham

"I had to write to express my appreciation of your commitment to bring Nobel Prize winning science to children's education ... my little son Tommy, 5 years old, came home thrilled and truly inspired by the workshop and started making his own versions of the C60 molecule."

Vanessa, NAGC children

"I always try to tell them Chemistry is fun and you managed to convince quite a few – so thank you. Your enthusiasm is great and you work well with the [A-level] students – so please continue your great work promoting science."

Cheryl, Esher College

"Thank you very much for your outstanding contribution to last week's Science in Action programme for GCSE students. ... I hope you could see for yourself that you had an attentive and appreciative audience – quite an achievement when you consider that there were eight hundred 14-16 year olds ... "

Radka, Training Partnership, Institute for Education

"It has been an ENORMOUS pleasure to accompany you around Sussex [a month of Brighton Science Festival workshops], many inspiring ideas and deep truths have emerged, so naturally as a result I'm more dazed and bedazzled by the world than I ever was. So it goes. I hope you enjoyed it. I know that 1000 kids did ... "

Richard Robinson, Brighton Science Festival

"It was very inspiring - I think in schools it can be easy to lose that sense of wonder and achievement that can be gained from making things. I am sure you've given many youngsters the encouragement to start tinkering a bit more. The talk was nicely balanced by having a good bit of physics too!"

Ally, IOP, Cambridge University

"Yes, I am most relieved that I can get into the [CSC] web site. And to say that your work is "useful" is quite an under-statement."

Jim, school science technician

"Thank you very much for the Chemistry in the movies lecture [*Hollywood Science* and *Some Science of Breaking Bad* talks]. I know it went down well because I tried to stop a discussion on the amount of viable oxygen in a car tyre for a good 10 minutes before moving on to inter-molecular bonding! Anyway truly appreciated, thanks!"

John Luton, Varndean College

It has been a pleasure to be able to hear you talk about science .. it was fantastic! .. I would love to go to another lecture of yours, or any other science activity around London!

Darren, Action High School

workshops, talks, skype workshops, articles, resources ...
